Qu-Dyn-11

Qu-Dyn Series · Air-Core Square Magnetorquer

Overview

The Qu-Dyn-11 is an air-core square magnetorquer providing a nominal dipole moment of 1,1 Am² at 5 V for CubeSat attitude control: detumbling, momentum dumping and fine attitude adjustments.

With no ferromagnetic core it has no residual magnetic moment and a perfectly linear response, and its flat 55 × 35 × 14 mm form factor integrates easily on panels and structures.
